## Presidents Report

Welcome to Tappet Torque for October.

Firstly I would like to thank all members and friends for the best wishes during my recent stay in hospital and home.

The power upgrade is underway with the trench in the centre of the track and some of the conduit layed. Powercor will be installing the cable very soon and then the electrician can do his part.

As members will have seen in the press and on the TV News the Modified drivers are in the process of organizing a three round series for Mildura which has created good interest from interstate Modified drivers which will help to promote racing in this class for the future.

The show is very soon and the club supports the show society by having a stand each year that promotes our club and classes. Help is needed to set up the tent and man the stand during the show. Thanks to Lower Murray Water for the use of their tent again this year. We are also part of the Elliot Emu Trail for the kids. A roster is available from Vicki McCarthy or at our next general meeting.

**Malcolm Crick**

## Social Club Presidents Report:

Welcome to the October Tappet Torque.

First of all it's great to see that Malcolm has recovered and is back on deck.

By the time this Tappet Torque comes out the car trial will have been run and that everyone had a great time.

Also in this issue is the show roster, please have a think as to what time slot it is that you can help out.

Also the duty class for each race event is published. As it is each class has duty for two events. Please let your class rep know which night you are available.

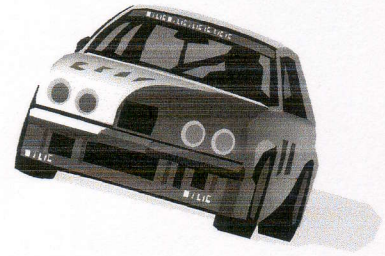

Social Committee meetings are held on the 3rd Monday of each month at the clubrooms at 8pm.

Everyone is welcome to attend.

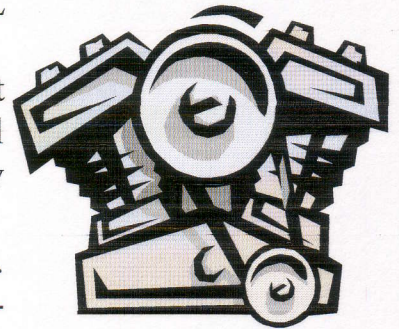

**Social Committee President**  
**Vicki McCarthy**
